ORGANIZED BY GRADE

To learn more about our reading programs visit www.headsprout.com
Headsprout Early Reading is a unique, Internet-based supplemental reading program that effectively teaches the essential skills and strategies required for reading success. Headsprout Early Reading incorporates best practices in teaching reading with practices derived from a science-based formative program development process. Students learn that letters represent sounds, sounds represent words, and words make sentences that go into stories that are read for meaning and enjoyment. The five components of effective reading instruction, as identified by the National Reading Panel, are taught through multiple interactions with engaging, animation-based episodes and by reading over 80 leveled stories.

Headsprout Early Reading serves as an online tutor, providing adaptive one-on-one instruction to each and every learner. Students learn important skills in meaning and communication, work on language skills, have access to and learn to enjoy literature, receive direct instruction on skills and processes essential to early reading, begin to understand the nuances (genre and craft) of language, increase text comprehension skills, and learn to apply their knowledge of text and story to a broader experience.

During Headsprout Early Reading, learners will

- Learn that words are made of sounds.
- Learn that sentences are made of words.
- Learn that words and sentences convey meaning.
- Learn a sounding-out strategy they can use anywhere.
- Learn over 90 sound/letter combinations, enough to sound out over 5,000 words.
- Learn several common “irregular” words.
- Build a fluent sight-reading repertoire.
- Learn to read with cadence and intonation.
- Build and extend vocabulary and comprehension skills.
- Prepare for the type of reading tests used by schools.
- Read over 80 engaging stories across a variety of genre and types of literature.

Headsprout Reading Comprehension is a unique, Internet-based supplemental reading program that teaches skills and strategies to comprehend text and to answer reading comprehension questions, including literal questions, inferential questions, questions about main idea, and vocabulary questions requiring the student to derive the meaning of a word or phrase from context. As students learn and practice these skills and strategies, they read a variety of narrative passages, expository passages, and poetry. Headsprout Reading Comprehension includes four chapter stories, six additional narrative pieces, twelve expository pieces covering varied topics in science, math, and social studies, and three poems. Students learn vocabulary throughout the program by engaging in explicit instructional activities, by accessing brief definitions while reading, and by deriving meaning from contextual clues. As students become increasingly independent in using strategies to answer questions, they also engage in activities specifically designed to prepare them for the testing environment.

During Headsprout Reading Comprehension, learners will

- Learn new vocabulary through explicit instruction and from context.
- Learn and practice strategies for answering questions about text, including literal comprehension questions, inferential comprehension questions, questions about main idea, and vocabulary questions that require deriving the meaning of a word or phrase from context.
- Learn when and how to apply specific comprehension strategies to answer questions about text.
- Develop skills in resource use, including how to use tables of contents, maps, diagrams, and other illustrations that accompany text.
- Develop skills in organizing information using Venn, sequence, cluster, and hierarchical diagrams.
- Become independent in using comprehension strategies across increasingly complex text, including narrative, expository and poetic text.
